sick of the death poem, of the ha ha lifecycle cynicism -- though i've writ that poem too—
sick cuz still grieving, still unable to handle the meemoory, wondering what should if it is
to say

if art wouldn't use any pinged pain as an image, beyond the annihilation poerm, what
could art say but be holy light-touch as a feather airy a tingggggg tingggggg like a feather
on the tuning fork, sun

and grieving my brother, wanting to see in the brass-colored afterlife him with his angel
